

1 Talks

This section includes downloadable material from the presentations and tutorials I gave.

(Presentations are listed in the reversed chronological order, the latest first.)

ApacheCon 2007 US, Atlanta, Georgia (November 12-16 2007)

Talk: From CGI to mod_perl 2.0, Fast!	[Abstract] [Hand-outs] [Slides]	Talk: mod_perl 2.0 For Speed Freaks!	[Abstract] [Hand-outs] [Slides]
---------------------------------------	---------------------------------	--------------------------------------	---------------------------------

ApacheCon 2006 US, Austin, Texas (October 9-13 20-06)

Talk: mod_perl 2.0 For Speed Freaks!	[Abstract] [Hand-outs] [Slides]
--------------------------------------	---------------------------------

Talk: mod_perl 2.0 Profiling and Instrumenting	[Abstract] [Hand-outs] [Slides]
--	---------------------------------

ApacheCon 2006 EU, Dublin, Ireland (December 26-30 2006)

Talk: From CGI to mod_perl 2.0, Fast!	[Abstract] [Hand-outs] [Slides]	Talk: mod_perl 2.0 For Speed Freaks!	[Abstract] [Hand-outs] [Slides]
---------------------------------------	---------------------------------	--------------------------------------	---------------------------------

ApacheCon 2005, San Diego, California, USA (December 10-14 2005)

Talk: From CGI to mod_perl 2.0, Fast!	[Abstract] [Hand-outs] [Slides]
---------------------------------------	---------------------------------

Talk: mod_perl 2.0 For Speed Freaks!	[Abstract] [Hand-outs] [Slides]
--------------------------------------	---------------------------------

WebGUI, NL 2005, Amsterdam, Netherlands (November 3-4 2005)

Talk: mod_perl 2.0 For Speed Freaks!	[Abstract] [Hand-outs] [Slides]
--------------------------------------	---------------------------------

Talk: mod_perl 2.0 Best Practices	[Abstract] [Hand-outs] [Slides]
-----------------------------------	---------------------------------

ApacheCon 2004, Las Vegas, Nevada, USA (July 12-17 2004)

Tutorial: mod_perl 2.0 by example (Nov 12 2004)	[Abstract] [Hand-outs] [Slides]
---	---------------------------------

Note: Some older PDF slides should be viewed in a landscape layout, but acroread doesn't realize that (PDF problems). So use `ghostview` application which understands PDF format along with PS. Recent PDFs should work just fine with acroread. Also it's known that some MS PDF readers have problems to print certain pages.
